Our benefits

About us

Kalfass Maschinen plus Automation is a manufacturer of machinery and systems for the solid timber industry. Our products are sold all over the world. When you work for us, you work where others spend their holidays. Enjoy the Northern Black Forest at any time of the year and relax in a beautiful natural environment that also offers a wealth of options for sports enthusiasts.

As an automation leader in the timber processing industry, we play in the top league. Our systems in special machine engineering are in great demand all over the world, our projects are complex and im-plementation is demanding, as nothing we provide is an off-the-shelf solution.
